Debt Settlement Information

How it works: since we are a law firm we are able to fully represent you in the negotiation process including attending mediations and court hearings. Creditors are often more willing to settle for smaller amounts after a lawsuit has been filed against you or after the debit has been placed in collections. Your monthly payments will be saved up until action becomes necessary in order to give us the ability to offer larger one-time payments on your debts.

Payment amount: you will set a monthly payment amount and we will negotiate with your creditors to settle your debts for either a larger one-time payment or affordable monthly payments.

Fees: we charge a \$200.00 enrollment fee plus \$200.00 per debt enrolled. For an additional fee we can attempt to collect on any outstanding debts owed to you or claims you may have and use any money collected to pay your creditors.
